

# SALMON AND STURGEON ON THE FRASER RIVER

*British Columbia from £2795.00*

## [Why Fish British Columbia, Canada?](#)

*British Columbia, Canada, has some of the most phenomenal and exciting salmon fishing opportunities the world has to offer. Every year our salmon runs number in the 10's of millions. Our sturgeon fishing is world class, and if that's not enough, we also have a great steelhead and trout fishery. Simply speaking, the mighty Fraser River and its tributaries produce an awesome year-round fishery that's tough to beat. Combine this great fishery with spectacular scenery and wildlife, and you have the opportunity to experience the trip of a lifetime!*

## [Who Are We?](#)

*We are a fish guiding company serving the Vancouver, Fraser Valley, and Whistler areas. We specialize in river sport fishing, targeting western Canada's top sport fish which include all 5 species of Pacific salmon, steelhead, trout, and of course, the prehistoric White Sturgeon. We are fully insured, and our licensed guides are both very professional and knowledgeable in their respective fields of river sport fishing. Safety and excellent sport are always at the top of our list!*

## [Where Do We Fish?](#)

*The Fraser River is approx. 850miles (1360km) long, and is the biggest salmon producing system in the world. While fishing with us, you get the chance to fish a piece of this famous river. With the option to fish 8 other great rivers, you can be assured to find salmon and other species during the many different runs. Not to mention world class Trout fishing in innumerable untouched wilderness lake. All this great fishing can be done within approx. 45min -1.5 hour drive from Vancouver.*

## [What Do We Offer?](#)

*Whether you're a beginner or advanced, male or female, young or old, we have trips for you. We offer a multitude of trips, each custom designed for you or your party, in order to better suit your needs. We try our best to provide you with a high*

*quality fishing experience that will leave you with an everlasting memory of your trip. All trips come with meal options. As a licensed vendor, we can also supply you with the necessary licenses.*

***Summer 2017**...fly fishing for bull trout in the Pitt River. This is the kind of fishing that fly fishermen will cross the world for, you can expect superb sport from early June to late July, with bull trout up to 15lbs! By mid July, Chinook salmon will start showing up as well. Once you move into August, there will be excellent fly fishing opportunities for Chinooks and the largest strain of sockeye in North America. With the Pitt River added to our guiding license this year, it will now offer our guests additional great wilderness fly fishing opportunities from June-October. It will be a great way to spread the fly fishing in BC over the year (instead of just the autumn), and it will also be a great "add-on" to any of your packages, especially for fly anglers looking to diversify their holiday and fishing experiences. For example, you*

*can now make the most of the great summer weather and still catch world class wild fish on the fly, and have a couple of days sturgeon fishing OR, in the autumn you can add a day or two on the Pitt river to their holiday package. Alongside the river there are natural hot springs, where we like to take our guests for a lunch break...sit back and relax in the hot springs, as you watch the main river rush through the canyon at your feet!...pretty amazing scenery up there. Not to mention the thrilling jet boat rides!*

*I will have more information for you on the Lillooet river adventures...this is a phenomenal winter/spring fishery for Trout, Dolly varden, Chinook salmon.....and an amazing autumn time fishery for trout, dolly varden, and pink, chum, and Coho salmon.*

*Please Note: We are now well into booking trips for the 2016 and even 2017 seasons. Autumn dates go fast because it is prime Salmon fly fishing time. For more information, please feel free to call us on 01480 403 293. We are more than happy to answer any of your questions.*

*[World Sport Fishing Ltd](#) will organize you complete package, we can offer flights, transfers, B+B lodge and hotel accommodation, the lodge is more popular as it offers constant access to the river. So with this in mind make sure you book early.*

## [What else can I do in BC?](#)

*For anglers and Non anglers alike there are myriad different activities and destinations in and around BC. Why not take in Vancouver itself for a few days, also Vancouver Island offers Whale watching, Kayaking, Sea fishing, the Pacific Rim national park and some fantastic scenery. The Rocky mountaineer train will carry you through the majestic Rockies for an overnight in Banff or you can take a cruise to Alaska. These are just a few of the experiences you can add to one of our fishing holidays. We will be happy to create an itinerary to suit you. A purpose designed trip to take in all or any of these fantastic attractions will delight the whole family and will not be as expensive as you may think.*

## [What Species Do We Target?](#)

**SALMON** We fish for all 5 species of Pacific Salmon, which include the Chinook, Sockeye, Coho, Pink, and Chum. With millions of fish returning every year up the Fraser River and its tributaries, it's not uncommon to hook into 40+ fish per day. Last year we had a phenomenal pink run that surpassed the 20 million fish mark. We also had a better than average Fraser River Chinook fishery, with fish averaging between 20-30lbs. Last fall we also saw a great return of Coho, which is a promising sign of good things to come this year. Sockeye and chum fishing were great as always and tons of fun. The salmon fishery can put a smile on everyone's face offering fantastic fly fishing as well as deep water lure fishing.

**STURGEON** The Fraser River sturgeon fishery is second to none. We have one of the world's largest populations of sturgeon, thanks partially to a total catch and release of these amazing creatures. Their size and power can sometimes be overwhelming, as they can reach weights in excess of 1500lbs! The average sturgeon on the Fraser is between 60-

200lbs, and hooking into 20+ fish is not uncommon. We recommend trying sturgeon fishing at least once in your lifetime. There is nothing else like seeing a 5-10ft fish explode out of the water, period! Give it a try and you won't be disappointed.

**STEELHEAD** for the more adventurous anglers who are brave enough to face the winter weather and seek a bit of a challenge, we have a great steelhead fishery on two local river systems. These two rivers produce both wild and hatchery fish, with yearly runs totaling approx. 8-10,000 fish. Hooking and landing one of these acrobats can be a very rewarding experience. Many fish get caught in the mid to high teens, with quite a few pushing the 20+ mark.

**RAINBOW TROUT AND CHAR** British Columbia's interior lakes offer some of the finest rainbow trout fishing in Canada. If you're an avid angler who enjoys the thrill of fly-fishing for trout, than this world-class rainbow trout fishery is for you. There are thousands of lakes spread out across the BC's scenic interior that offer great rainbow trout fishing opportunities, and you'll be able to sample a few of these lakes when fishing with us. Many of the lakes are located at different elevations, allowing for an extended fishing season. The ice disappears first on the lower elevation lakes, which produce the first good spring fishing opportunities in April and May, when the first major insect hatches come off. Higher elevation and high alpine lakes lose the ice later in the season, allowing you to experience the same great fishing into June and July.

Some trophy lakes can produce rainbow trout up to 20lbs, with many other lakes supporting healthy populations of 2-6lb fish. The beautiful Rainbow trout are known for their superb fighting abilities and acrobatic aerial displays and are a great sport on the fly. Some of the lakes have crystal clear waters that allow you to cast to fish that you can spot cruising in the shallows. There are several major insect hatches that are the main food source for these rainbow trout. When fishing these major hatches, it is not uncommon to hook 20+ trout/person in one day. Come and enjoy some of the best trout fly-fishing waters that Canada has to offer. The spectacular scenery, breathtaking views and fantastic trout fishing will surely make this fishing trip one to remember.

**ACCOMMODATIONS** We are associated with a riverside B&B, a hotel, and a log cabin lodge, all offering great lodging close to most of our popular fishing areas.

### **Chilliwack Lodge**

This Deluxe lodge settled on the banks of the River with fantastic views of the beautiful Fraser Valley. Apart from fishing, other local activities include golfing, hiking, skiing, hot springs, helicopter tours, shopping and dining. It is an ideal escape for anglers looking for deluxe accommodation in a beautiful remote setting. It provides all amenities. Frazer River Edge Lodge – B&B has accommodations for up to eight guests. All rooms have an unbelievable view of the Fraser River Valley and can be configured with either two Twin XL beds or one King bed. All beds and linens are new top-of-the-line quality. Each room has a locking door and private entrance leading outside onto semi-private decks. Each room has a private ensuite with shower, robes and linens, 26" LCD TV/ DVD, wi-fi internet, iPod Clock Stereo, and air conditioning.

There is a situated in the Guest Kitchen. The Guest Living room has seating for eight in leather reclining chairs and couches, complete with a 50" LCD TV and DVD library. This area is for guests only and is separate from the owner's living area. A shared guest kitchen and adjacent covered deck with cedar log picnic table and barbecue allow guests the freedom to prepare their own meals and snacks. A Cedar Sauna with an outside spring fed shower, and a 7 person 32 jet Hot Tub complete the amenities. For larger groups, the front living room and kitchen is made available for your enjoyment. There are several outside decks available for your

enjoyment, allowing private space for all guests even when fully booked. We are situated on 3 acres of majestic riverfront mountainside rainforest. The entire property is covered with ferns while overhead you will find towering Firs, Cedars, Alders, Pine, Birch, Maple, Cottonwood Dogwood, and Japanese Maples. Enjoy an evening around the Firepit, or take stroll through the forest. Other amenities include limited RV or Boat Parking, complimentary computer/internet station, a dry room for fishing gear, freezer usage, Utility Vehicle transportation to the river if needed.

### **Rhombus and Rainbow Inn hotels:**

-This 82-room hotel is located right in the town of Chilliwack (approx. 1 hr east of Vancouver), and is close to most shopping centers and restaurants. It offers an indoor pool and Jacuzzi for those who wish to relax after a long day of fishing. There is a restaurant attached right to the hotel, and there are many other fine dining options located only a few minutes away. It is only 10 minutes away from the Fraser River.

-This hotel offers cheaper pricing than the B&B, but there are no meals included. The rooms are spacious and kept very clean. You get 2-queen size beds/room based on double occupancy.

**Amenities and Services include:** free lobby newspaper- indoor heated pool and Jacuzzi free incoming faxes- Pantry Family Restaurant on premises- guest laundry facilities- colour TV and phone
